OFFICIAL LABOR PAPER
NUMBER 106

CALIFORNIA FOR JOHNSON LOS ANGELES FOR HOOVER

**Richmond Gives Johnson 2934 Votes and
Hoover 575—Johnson's Majority 1359
—Much Interest Shown**

Great is the power of the Johnson machine, and great was the interest taken in yesterday's primary election. The Associated Press conceded Johnson's victory by a majority of 125,000. In but few isolated precincts in the state did he fail to receive a three to one testimonial. Richmond gave Johnson a vote of 5 to 1—or 2934 to 575. Contra Costa county voted three to one, as did Alameda, and practically all of Northern California on incomplete returns. Johnson led in San Francisco by 40,000 majority, and on the face of dispatches lost only in Los Angeles. Incomplete returns from Martinez for the county gave Johnson 5886; Hoover, 1420. Fresno went 5000 majority and large leads were given him in practically every large center. No returns could be had from Berkeley, but effete Piedmont went three to one for Hoover. San Pablo and El Cerrito gave Johnson nearly six to one majority, as did practically every town in the county. Excitement ran high in Richmond up to a late hour, and the vote of 3509 was one of the largest in recent elections. The vote by precincts for Richmond follows:

Richmond Precinct No. 1: Polling place, Winhaven Fire Hall, Johnson, 28; Hoover, 9.

EVERYBODY WANTS FREE PUBLICITY

The News and every other newspaper in the country gets from one to three armfuls of publicity matter in its mails every day from every conceivable source on earth, all advertising matter on the part of people who are making money out of it, and all asked for free. We have mentioned this several times before, and it is getting positively disgusting. It is so palpably unfair, unjust and smacking of graft.

And while on the subject we desire to say a few words to local people on this very matter. We want to ask a few pertinent questions.

If your lodge, or organization, or whatever it is, is going to give, let us say, for instance, a supper, for which it charges from 50 cents to \$1 a ticket, would you think of going to the meat market and asking for five or six hams to make the sandwiches, free, and expect them to be donated? Would you go to the bakery and ask the baker man to make you a present of two dozen loaves of bread? Or to the grocer and ask him for free coffee and free sugar?

Well, why not? You come in here and ask us to give the only merchandise we have in the world to sell—advertising and publicity—free. What's the difference? Why don't you ask the same thing of the other merchants?

As the newspaper has nothing else to sell but its space, it must go broke and quit business if it gives it free, yet everybody expects it free. Why? What's the big idea?

There is no profit on subscriptions. Every paper we deliver to you at 40 cents a month we lose money on. Our only source of revenue is from advertising and a little on job printing, so if you people will kindly digest that fact, and try to understand it, we will be very much obliged.

When you expect to make money out of the publicity, you have a cast-iron nerve to ask that publicity free from the newspaper.

The meeting of the security benefit Association held last night was well attended and a number of new members were admitted.

The weather has been cold so far this spring, but is beginning to thaw out some, and the roses are blooming here in Richmond by the millions, making a beautiful sight. The vegetable gardens are beginning to look nice also. This scribe is enjoying new potatoes, peas, lettuce, beans and other garden truck, with frequent dishes of strawberries.

SLAIN WIFE OF BLUEBEARD FOUND

**Another Chapter of the Most
Horrible Murder in the
Annals of America Is
Unearthed—Mexican Revolution
Gaining Rapidly—
Wood Defeats Johnson in
Maryland—Wire News.**

EL CENTRO, Cal., May 4.—Nina Lee Delaney's grave has given up its dead.

Thus "Bluebeard" Harvey, murderer of five "wives," has linked proof to his chain of amazing crime and the most dramatic mysteries of criminology in America today stands bare.

"There is the grave," he said, pointing with fingers steady.

"She is there just as I said," Harvey told the truth. Then he collapsed.

That was at 9:55 a. m. today, five miles west of Coyote Wells, a wild country of granite rocks and granite dust. Five minutes later the woman's face showed through the sand.

"I told the truth," said Harvey just before he collapsed and was carried back to his ambulance.

"I did it to help right my wrongs. I have told everything that I can just now."

Harvey did not climb the rugged mountain side, half way up which the body was found. He did not wish to see the corpse exhumed but he stood in the sandy wash just off the paved road, the only sign of civilization in that waste of land, and directed District Attorney Woolwine of Los Angeles and corps of searchers to the grave.

"Don't mar the face or the head," Woolwine cautioned as the deputy sheriffs shoveled away the sand. "I will want to show the hammer marks on the skull."

Bluebeard had confessed that he

LOCAL EAGLES ELECT THEIR NEW OFFICERS

Last night the Richmond Aerie of Eagles had an interesting time in selecting their new officers for the ensuing term, which they did as follows:

J. M. Barillas, worthy president; W. Salabury, worthy vice president; C. E. Caswell, worthy chaplain; Ernest Wise, worthy secretary; W. McChristian, worthy treasurer; Slimmons Perison, worthy inside guard; Frank Perison, worthy outside guard; G. F. Kelly, trustee; Dr. C. R. Blake, Aerie physician.

Installation will take place at the first meeting in June.

These Richmond Eagle birds are planning a big hurrah and jolly good time on the evening of Tuesday, the 7th, at which time there will be a large class initiation, at which Oakland Aerie No. 7 will put on the work, and following this will be refreshments, a smoker and general good social time.

MIRTHFULLY INCLINED

Anita: A fib is the same as a story, and a story is the same as a lie.

Nelly: No, it's not.

Anita: Yes, it is; because my father said so, and my father is a professor at the university.

Nellie: I don't care if he is. My father is a real estate man, and he knows more about lying than your father does.

A Good Guess

"What is the connecting link between the animal and vegetable kingdoms?" asked the teacher.

"Hash!" yelled the class with one voice.

SALVATION ARMY
ASKS FOR HELP

Richmond citizens will be called upon to do their full share in raising the \$6000 which has been declared as Contra Costa county's quota in the coming Salvation Army campaign, which begins next Monday.

Men who have returned from service abroad state that although the Red Cross worked wonders, the Y. M. C. A. worked blunders and many other organizations did splendid work, that it was the Salvation Army which was the greatest help to the doughboy in his times of need "over there."

With hot coffee and doughnuts served at all hours in all places, the Salvation leasies went right up into the front lines and were the closest auxiliary that the army had.

And now the people who stayed at home are going to be asked to contribute to the support of "carrying on" this wonderful work.

This organization, which is the only religious institution in the world that has never wandered away from its prime motive of service for Christ, is one of the most sacrificing bodies in our knowledge.

Treating themselves to none of the luxuries of life, the workers spend their every waking hour in service for their fellow men, and thousands of human derelicts have been salvaged and sent off in a new and better course by this rescue crew in the sea of life.

Every Christmas those poor individuals who have no home, no friendly fireside, no anything but miserableness, are taken into the homely atmosphere of the clean rooms of the Salvation Army and there treated to a marvelous feast that seems to give them a new grip on the fast slipping world.

And now the average Christian, whose motto is "Leave it to George" when it comes to actual work in the furtherance of their doctrines, is requested to add at least his financial support to the greatest beneficial institution in the world. Will we do it? YES! We'll override it if necessary.

The executive committee for this county is made up of Hiram B. Jacobs, chairman; T. M. Carlson, secretary; and L. B. Vaughn, treasurer; advisory board, H. E. Jacobs, T. M. Carlson, Mrs. U. S. Abbott, Mrs. Bernice McCormick, T. H. DeLap, E. M. Downer, W. T. Helms, R. H. Latimer, A. B. McKenna, A. B. McMahon, R. R. Vesle, R. R. Arnold, George O. Meese, E. D. Armstrong, T. D. Johnston.

The chairman of the committee in charge of the drive in Richmond is C. E. Clark.

ELECTIONS FOR HARBOR AND CHANGE OF CHARTER

**Richmond Awake To Fact That Neighboring
Cities Are Up And Doing—Present
Hickville Government Obsolete**

Richmond is awakening and

awakening fast. Our city is awakening to the fact that we are behind the times in our system of government; it is awakening to the fact that a blow was struck at the development of Richmond when a minority beat the bonds for further development of our inner harbor last November.

Even that minority, or at least all of the minority that cannot be dominated by interests trying to block construction of the harbor, are now swinging around to the progressive side of the proposition. The bonds will be voted without a doubt when another election is called.

The fact that Berkeley is to build a big terminal where ocean-going ships can meet transcontinental rails, pictures and descriptions of which are now appearing in the press, has stirred the citizens of Richmond to what we are losing here. Other communities know the necessity of harbor development for growth. They know that the demand for waterfront sites and shipping facilities is growing so enormously that everything in that line is coming into demand at an increasing rate.

Arrangement has been made recently that the Union Oil Company will establish a great shipping and distribution plant on acreage on the Farr Terminal between the Key Route mole and the Southern Pacific mole on the Oakland waterfront. Development of this place of frontage promised to bring Oakland millions in new development.

In this situation, with more and more great corporations looking toward San Francisco bay for waterfront locations at reasonable prices,

for the harbor bond election will be called in a very short time now. If the city council refuses to call it or tries to block the call, a petition with sufficient signatures will be presented to insure the call.

The election to amend the charter to provide a modern form of government will also probably be called soon. That this will go through with ease there can be no doubt, for the people here know that we are operating under an obsolete form of government that does not make for efficiency. It is understood that at least four members of the city council favor the change.

None will have any excuse for opposing it because it is so apparently for the good of Richmond.

Local Contractor Gets Co. Road Job

J. E. Stinegar was the low bidder for the paving of four miles of county highway in the San Pablo creek section when bids for the work were received by the board of supervisors Monday. The bid of Stinegar for the work was \$84,842. The other proposals were: Bates & Portland, \$112,404; R. H. Downer and P. A. Moro, \$148,486. Bids were also received by the supervisors for the paving of the Borden highway in the eastern section of the county. The road is to be constructed of oil macadam, the low bid being made by A. H. Koppard, whose proposal for the work was \$16,567.08.

County Clubs To Meet Here

At a meeting of the Richmond Club held on Monday afternoon it was decided that the next meeting of the County Federation of Women's Clubs would be held next Thursday in the clubhouse.

Mrs. Clara Wilson, who was selected to procure a speaker for the occasion, said last night that everyone was so busy voting yesterday that she would not know until today who would do the oratorical trick for the gathering.

Mrs. Stiver, the recently successful "politicianess," will serve tea following the speeches and the public is cordially invited to attend the affair.

Whatever purpose you may be saving money to fulfill—it pays to open a Mechanics Bank account—pays and helps. It provides a system under which you can watch the accumulation grow, while all the time your fund is protected from thoughtless, wasteful spending and held true to your object. THE BUSINESS OUTLOOK

Some reasons have already been stated why there is reason for confidence regarding the business future. There are certain contrary aspects that should be studied. It is never wise to dwell too much on the darker outlooks. But when obstacles to prosperity exist, they should be considered, to see if they cannot be modified or removed.

First, the chaos of Europe. This directly affects American business. If the people of Europe can get to work, they will soon be sending over their orders for great quantities of machinery and raw materials. This will help tremendously to tide over any tendency to uncertainty and unemployment.

The American people are keenly desirous for some form of international agreement or organization that will help prevent future war, but the first thing to be done is to get a treaty of peace signed, and get people to work in the recently warring and devastated countries.

Second, the spread of radicalism. It does not seem likely that these fantastic notions can get any strong hold in this country. Still there is a great mass of un-Americanized people who are a fertile field for these doctrines. And there are many natives who never seriously study economic questions. Many of these are likely to be swept off their feet by popular waves of feeling.

A strong manifestation of the Bolshevistic spirit in this country would lead business men to check their commitments and call off projected enterprises. They would salt down their money in government and other securities less risky than manufacturing. This would slow down all business and throw a great number of people out of work.

PEACE IS WARM STUFF

Everything is quiet now and nobody is fighting except the Bolsheviks, Poles, Croats, Italians, Jugo-Slavs, Czech-Slovaks, German-Austrians, Poles, Bavarian Soviets, Hungarian revolutionists, Siberians, Lithuanians, Ukrainians, and Mexicans.

We thought that everything had been settled and that the sea had been made safe for Annette Kellermann and her mermaid movies, and now every shipyard on earth is turning out battleships, cruisers, scouts and destroyers twenty-four hours a day, and the gun factories which were going to begin making typewriters and carpet sweepers with the first sign of peace have increased the capacity for guns. Battleships are being launched that have guns capable of lying off San Francisco and knocking the dome off the courthouse in Denver, Colorado.

All of which shows that peace is like mushrooms. It is hard to tell at first glance whether it is the real thing.

Peace is strong medicine. People have to learn how to take it.

Many a piece of meat has money and many a noble man has none.

We have to work on Saturday, and have to work on Monday, and everybody knows, doggone it, one can't catch fish on Sunday. So here we are tied up in town, and spite of all our wishing, we cannot hunt, and we cannot hunt, and we cannot fish, and when we can't go hunting how will we get the rabbit skins to clothe our baby bunting? We'd love to skip across the hills and down the valleys wander, and we just know the fish would bite if we could get out yonder.

THINKOGRAPHS

The reason women stand before the glass while dressing is because they like to see what's going on.

If a man knows how to make money the world doesn't care much if he doesn't know anything else.

Some parts of church services are much like reading the proceedings of the previous meeting.

A successful man is not one who has good luck, but one who intelligently fought bad luck and won.

Conditions are now perfectly normal in Turkey, as the Turks are massacring Armenians again.

Prominent among the requisite garden tools is a plentiful supply of rocks to throw at your neighbors' hens.

We have no objection to trying a limited quantity of provisions on these Bolsheviks, but not unless there is to be a big stick follow-up if the goulash fails to help.

Some of our letters go astray in the mails, but nothing happened to our income tax blank. It came as straight as an arrow and with the swiftness of the eagle.

Nothing makes a man in moderate circumstances sicker than to hear some sleek individual that makes \$15,000 or \$20,000 a year whining about his income tax.

The improvident who spent money faster than he could make it was regarded as a ne'er-do-well, but Uncle Sam, with Congress at the bat, spends it faster than he can borrow it.

Personally, we look for Germany to become penitent and tractable just as soon as the belly-hand shrinkage becomes a little more pronounced and the military mustaches are moved.

"It is time for the nation to begin to teach its tools," says a Maryland congressman. That would be better than this monotonous thing of having the tools do so much of the teaching.

A paroled convict went back to prison to complete his term because the cost of living was too high. It will be an awful thing if the profiteers ultimately drive law-abiding people to jail to get food.

In the cities they are longing for the lovely songs of the birds and the odor of freshly turned up earth, while in the country they are longing for the white lights and the excitement of the crowd.

It is said American women wear \$50,000,000 worth of corsets a year. The funny part of it is, they used to wear \$25,000,000 worth until they had the upper half of the things omitted, and then the price doubled.

The Rev. William Sunday is of the opinion that the ex-kaiser should be permitted to drink nothing but Belgian beer. Would not a more adequate punishment be to compel the ex-kaiser to memorize a number of Mr. Sunday's sermons?

Another thing that unsettles the business and industrial situation is that here are entirely too many people getting big money they do not work for. And what the world needs now more than the money of men is the work of men.

Colonel Bryan says he is fighting for the Lord, and the rest of the politicians say they are fighting for the people. It does beat everything how much fighting has been done for the Lord and the people. The Lord and the people ought to be more peaceable, and call off a lot of these dogs of war.

Notice of Removal

The phenomenal growth of Richmond and its bright prospects for the future have been the determining factors in deciding upon the removal of our head office from San Francisco to Richmond. REUBEN LONG IS DEAD AT NINETY

Reuben Long was nearly 91 years old when he died yesterday at the home of his daughter, Mrs. M. J. Arnold, 127 Eleventh street. Funeral services are not yet arranged for, but the remains will be shipped to Napa tomorrow, where burial is to be made in the family vault.

Seniors Are Not Invited

Almira McGuffin was the hostess at a "get-together" party of juniors from the Richmond high school held at her home, 724 Barrett avenue, last night.

Music, games and dancing were enjoyed and refreshments were served to about forty members of the class, besides some five or so seniors who reluctantly accepted their lunch on the porch. These uninvited guests, who appeared on the porch and gave a demonstration of their embarrassment at not being asked to the affair, were the feature of the evening. It almost came to blows but the seniors retired without suffering any casualties.

John Rihn Back From Land of Cotton

John Rihn, wife and child, are back home in Richmond for a visit, as the little one has been ill. Johnny is a "cotton king" these days, in the Palo Verde valley, Riverside county, and is raising cotton instead of Helen Blazes, like we fellows around here do. The cotton industry is taking great strides in the Imperial and Palo Verde valleys, and if the present demand and prices keep up a few years Rihn stands to make a wad as big as a bundle of oil cloth. Still, he says, the prices of raising the cotton, like everything else, have gone up, and a cotton picker is paid \$3 and as high as \$4 a hundred pounds, where he used to get \$1. John Rihn, who is a hale and hearty fellow, says cotton planting beats the estate game.

The lecture will be free and deeply interesting, as the speaker is a prominent man and eloquent.

All members of the local Chamber of Commerce are urged to be present and bring their friends.

WAR WIRE CONTROL COST 14 MILLIONS

WASHINGTON, May 4.—Operation of the telegraph and telephone companies during the war cost the government \$14,005,565, Postmaster General Burleson informed Congress today in asking immediate appropriation of that amount to liquidate the affairs of the federal wire administration.

"The deficit," wrote Burleson, "is the outcome of operations involving gross revenue of more than \$600,000,000, and therefore represents less than two and one-half per cent of the total gross revenues."

MILLIONAIRE MURDERED AT LOS ANGELES

LOS ANGELES, May 4.—Strangled to death with a heavy rope and his body terribly beaten, H. J. Robbins, retired capitalist of Shelton, Nebraska, was found murdered in a vacant lot several blocks from his winter home here today.

That robbery was not the motive for the crime is shown by the fact that Robbins' money, watch and other jewelry was untouched. The rope with which Robbins was

The use of water will not be restricted this season-

The East Bay Water Company announces that there will be no restriction in the use of water in Oakland, Alameda, Berkeley, Richmond, and the communities served by this company, during the coming summer months.

While there is a shortage of water throughout the state due to the lack of rainfall, the resources of the Water Company are adequate to take care of all normal needs. So well planned are the pumping, distributing, and storage systems of this company, that no one need be anxious or apprehensive as to a failure in the supply.

Those who have hesitated in planting gardens or lawns may proceed with their plans with the full assurance that there will be a sufficient supply of water to meet this season's needs.

Use all the water you need, but do not waste it. Careless and extravagant use only causes you needless expense.

It was a great victory for the Johnson forces, and they all worked hard for it. All right. May they enjoy it, for when they get to the Chicago convention the throw-down they will get will be a dizzy affair.

The great play on the part of the professional politicians who know the game and play it to a frazzle, was, first, to beat Hoover in his own state, because it was Hoover they were afraid of. Having thus put him out of the running the next move will be to bury Johnson ten thousand fathoms deep at the convention. Wait and see.

Asks Damages For Loss of Job

Suit asking that a judgment of the justice court be declared vacated and \$1128 damages because, he alleges, he lost his position with the Pacific Tank and Pipe Company as a result of the suit, was filed in superior court by E. L. Moore of Richmond against Theodore Marcolla.

The suit instituted in justice court by Marcolla against Moore was to recover on a note alleged to have been executed by Moore to John Sillic and assigned by the latter. In answering the summons, the complaint avers, Moore merely appeared in justice court and declared he did not owe the note as presented. Judgment for \$197 was given in favor of Marcolla. A writ of execution was issued, the complaint avers, causing Moore to lose his position.

He has been out of work for nine months, he alleges, and asks damages of \$1128 as remuneration. Daniel Barton is attorney for plaintiff.

Social Service

Asks Clothes

The Social Service Bureau that has been doing a great deal of good work in seeing that some of the needy families of the city have been supplied with clothing, are now confronted with an extra demand. There are many who are planning to go into the fruit fields as soon as the schools are closed. The Social Service Bureau makes an appeal to the people of the city to turn over to them everything in the way of clothing that they do not need. Parents of needy families can take clothes of larger persons and make them over for the children.

If you have anything in this line call Mrs. C. S. Gibson, 429 Eleventh street, Richmond 207, or Arthur Alstrom at Richmond 335, and they will see that the clothes are gathered up.

Reading Advertisements Has Helped to Make This a United Country

Jim Hawkins props his feet on the rose festooned porch railing in an Oregon suburb and reads the same motor car advertisement that Cousin Peter is studying as he rides home from work in the New York subway. In Arizona you can buy the same tooth paste and tobacco that are used by the folks in Maine.

California fruit growers advertise their oranges and lemons to the people of the East. New Hampshire factories make ice cream freezers for Texas households.

There can be no division in a country so bound together by taste, habit and custom.

You can meet up with anybody in the United States and quickly get on a conversational footing because you both read the same advertisements.

Advertising is the daily guide to what's good to buy.
